## 1 Introduction

Thank you to have downloaded Modern People Asset. In this asset you find 20 low-poly models (10 men and 10 women) with a classic skeleton. Models are realistic. You can use them in your scene to describe a real world.

## 2 Dependencies

To use the asset in correct ways, you need to download the following dependencies:

1. Standard Assets/Characters/ThirdPersonCharacter/Animation/

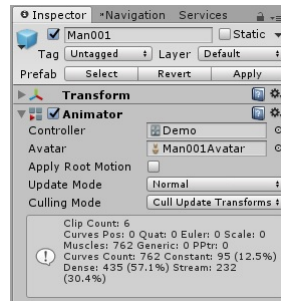

Put dependencies next to Modern People folder.

## 3 Demo

You can see models in movement in demo scene. To watch the demo, open the scene (demo) which is in folder 'Demo/' and execute it.

## 4 How to use the asset ?

This asset is simply to use. You select your model that you want and you put it in your scene. Then, you can attribute an animator to give life.

All items of 'Standard Asset/Characters' can be used with models.
